

Replacement TFT-LCD Monitor

12" LCD Industrial-Monitor for Krauss-Maffei Control

Our Industrial-Monitors with their new TFT-Technology replacing out-dated or defective CRT Monitors. They are suitable for Krauss-Maffei injection moulding machines with MC2 and MC3 Controls. Developed and produced in Germany, they are of high quality and long term available. The Lifetime of the Components is up to 4 Times more than CRT-Monitors. Memory-Effects are not known. A wide viewing angle and a stable, non-flickering picture guarantee the best possible reading. Thanks to the well considered mechanics our Monitor fit perfectly into the existing mountings.
